Gideon A. Afriyie

Mathematics Undergraduate | Applied Mathematics & Quantitative Research

gideonafriyie23@gmail.com | Gettysburg, PA | gideonafriyie.github.io | gideon-afriyie

Research Experience

3D Topographic Modeling Research Assistant
Gettysburg College
Aug 2026 – Present | Gettysburg, PA

- Developing tactile 3D terrain models from regional elevation and topographic data.
- Researching digital modeling, prototyping, and fabrication workflows for classroom use.

Research Collaborator – AI & Finance
Tsinghua University / IIIF
2026 – Present | Remote

- Contributing to macroeconomic nowcasting research using statistical and machine-learning models across CPI, unemployment, and other economic data sources.

Data Analytics Fellow
Under Canvas Inc.
May 2025 – Jul 2025

- Analyzed a $1.6M organizational dataset using Python and Excel to identify bonus inconsistencies and evaluate cost efficiency.
- Proposed a data-driven incentive framework for compensation and budget planning.

Research Programs & Training

TPU Research Cloud
Google
May 2026 – Present | Remote
`https://sites.research.google/trc/about/`

- Selected for Google's TPU Research Cloud and awarded Cloud TPU infrastructure for ML research on extreme statistical models.

AI Summer School
MIT/Harvard IAIFI
Aug 2026
`https://iaifi.org/phd-summer-school.html`

- Studied symbolic regression, diffusion models, and simulation-based inference.
- Participated in a collaborative physics-informed AI hackathon.

Education

B.A. Mathematics, Minor in Economics
Gettysburg College
2023 – 2027 | Gettysburg, PA

Areas of Interest

- Applied Mathematics
- AI Research
- Time-Series Analysis
- AI / AI4Science
- Quantitative Research

Research Profiles

- Website
- Google Scholar
- ORCID

Honors & Awards

AMS–Math Alliance F-GAP Scholar
2026–27 F-GAP Program
2026

Taylor Gaw '13 Endowed Fellowship
Gettysburg College
2026

Seibert Project Award
Gettysburg College
2024

David Wills Scholar
$33,000/year merit scholarship
2023

Publication

Extreme Value Theory Analysis of Prime Gap Distributions
Statistics & Probability Letters (Elsevier)
2026
DOI: 10.1016/j.spl.2026.110898
