

Gideon A. Afriyie

AI RESEARCH · DATA ANALYSIS · QUANTITATIVE RESEARCH

✉ gideonafriyie23@gmail.com | 🏠 gideonafriyie.github.io | 📺 gideon-afriyie

Experience

Under Canvas Inc.

May 2025 - July 2025

DATA ANALYTICS FELLOW

- Analyzed a \$1.6M dataset using Python/Excel to model bonus inconsistencies and cost efficiency.
- Proposed a data-driven incentive framework to optimize corporate cost efficiency.

Brighter Generation

May 2024 - Sept. 2024

VOLUNTEER TEACHING ASSISTANT

Remote

- Assisted instructional delivery for 25+ high school students; graded homework and evaluated academic progress.
- Maintained commitment across 2–4am sessions due to US-Ethiopia time difference.

Research & Programs

Google

May 2026 - Present

TRC RESEARCH 🔗

- Selected and awarded Google Cloud TPU infrastructure grant for ML research on extreme statistical models.
- Research findings expected for publication; Google TRC participants required to share results publicly.

Gettysburg College

August 2026 - Present

RESEARCH ASSISTANT

On-campus

- Processing regional GIS and topographic datasets to engineer precise 3D physical coordinate models using digital fabrication tools.

Portland State University

June 2026 - August 2026

ALTREU RESEARCH (TEAM OF 4) 🔗

Remote | Part-time

- Built ML pipeline predicting LA daily AQI from 10 years of NASA and EPA data; model achieved R^2 of 0.825, beating target baseline by 44.6%.
- Engineered a 3,650-day, 5-pollutant AQI dataset with zero missing values from EPA AQS API.

MIT/Harvard IAIFI

August 2026

AI SUMMER SCHOOL 🔗

- Attended lectures on symbolic regression, diffusion models, and simulation-based inference.
- Collaborated in a hackathon applying Physics-Informed AI methods with hands-on tutorials.

Publications

Afriyie, G. A.

“Extreme Value Theory Analysis of Prime Gap Distributions: Statistical Analysis of Cramér’s Conjecture and Light-Tailed Behavior.” *Journal of Statistics & Probability Letters* (Elsevier). DOI: 10.1016/j.spl.2026.110898

Honors & Awards

- 2026 **F-GAP Scholar**, a selective national program recognizing mathematical talent
- 2026 **Taylor Gaw ’13 Endowed Fellowship**, competitive institutional fellowship
- 2024 **Seibert Project Award**, recognized for leadership, mentorship, and community impact
- 2023 **David Wills Scholar**, merit-based academic excellence award (\$33,000/yr) - 1530 SAT (780/800 Math)

Education

Gettysburg College, B.A. Mathematics, Economics minor

2023 - 2027

Gettysburg, PA

BAUM Tenpers Institute, SDEs, Stochastic Calculus, Dynamic Programming

Summer 2025

Grad-Coursework

Skills

Tools	Python, R, SQL, LaTeX, Excel
Modeling	EVT, Time-Series, Statistical Inference
